

What is RGA's Underwriting University II?

RGA's Underwriting University II is a three-day program that provides specialized training for your highly motivated senior underwriters with **five or more years of underwriting experience**. It provides opportunities for them to meet with RGA's medical staff, FALUs and other highly experienced underwriters in a series of advanced topic discussions.

The objective of the program is to augment participants' exposure to complex substandard underwriting by closely examining and participating in case reviews and roundtable discussions with our medial and senior staff.

The Program

- Delves into complicated impaired risk case reviews
- Allows for topical discussions to ensure your underwriters' needs are being met
- Enhances your in-house training and improves the skills and knowledge of your team
- Presentations from RGA's knowledgeable staff which includes five medical directors and over 45 FALU's as well as other highly experience underwriters

Topics

Multiple topics are covered each day. Some of the topics covered include:

- Echocardiograms/EKGs
- Chronic Pain
- Cancer
- Neurologic Impairments

At RGA University, participants benefit from the breadth and depth of RGA's expertise.

RGA Course Leaders

Our staff includes five Medical Directors, over 45 FALUs and other senior underwriters, with an average of more than 18 years of underwriting experience. In addition to their expertise in impaired risk underwriting, our course instructors are subject-matter experts in foreign travel, avocations, aviation, older-age underwriting, pharmacy records, underwriting technology, predictive modeling, risk management, large case and financial underwriting.

Program Costs

The cost to clients for participating underwriters is limited to transportation, hotel accommodations and some meals. RGA provides several dinners and all lunches with members of our staff.

Registration

To register, or for additional information, please [click here](#).

As an industry leader, RGA recognizes the value of offering training programs to our client insurers to:

- Proactively increase the pool of highly trained underwriters in the field; and
- Partner with clients in developing their organizations for the future.
